Dear Mr. Hammond,

This is in reference to your Freedom of Information Act (FOIA) request dated December 23, 2014. Your request was received in this office on December 24, 2014, and was assigned case number **DON-NAVY-2015-002019**.

We conducted a search of our offices for records responsive to your request. Our search included the office shared network device used for FOIA matters, hard copy records, and the personal email traffic and network drives assigned to individuals who worked in this office during the time period in question. In addition, we coordinated with the Defense Freedom of Information Policy Office and the DON Chief Information Officer, on the expectation that any final products would have been submitted to those offices. Our search revealed that a draft backlog reduction plan had been prepared, but it was never finalized, due to a lack of continued requirement.

Records indicate that, in anticipation of DOJ backlog plan requirements, following submission of the FY 2011 Annual Report data, DoD required DON to prepare a backlog reduction plan for submission with the FY 2012 Annual Report data. However, in the third quarter of FY 2012 (April-June), DoD indicated that a backlog reduction plan was no longer required. While DON developed a "plan," there was no formal document created that presented a clear and concise explication of this plan, as resources to develop the formal plan were reallocated to regular day-to-day business.

In the interest of transparency, please find attached a draft copy of a proposed backlog reduction plan. Please be advised that this is a draft document that includes proposed actions that had not been finalized, and does not necessarily represent the actual course of events.
